

ultimail™ 95

DIGITAL MAILING SYSTEM

THE **ultimail™ 95** FROM FP MAILING SOLUTIONS, BUILT FROM GERMAN ENGINEERING, FEATURES UNMATCHED QUALITY, PERFORMANCE AND VERSATILITY.

THE **ultimail™ 95** MEETS ALL THE REQUIREMENTS OF A COMPANY THAT NEEDS ADVANCED CONTROL OVER ITS MAIL PROCESSING.

The **ultimail™ 95** is easy to use, it automatically processes up to 120 pieces per minute with a crisp print quality. Experience bottom-line benefits immediately with its ability to track up to 150 departmental accounts, giving you instant access to where postage dollars are being spent. The **ultimail™ 95** is also IBIP compliant, meeting all USPS standards for mail security, for added protection and safety. The **ultimail™ 95** offers a myriad of world-class enhancements and features. The **ultimail™ 95's** advanced features not only make it easy to keep track of how much is spent on postage, it also provides further cost savings by making it possible to add custom advertisements or logos as a part of the postage impression on the envelope. Using these features to take advantage of a free advertising opportunity to reinforce key promotions or messages in a place recipients are sure to notice makes the **ultimail™ 95** more than a mailing solution. With the addition of optional scales, as well as enhanced accounting & shipping software, the versatile **ultimail™ 95** becomes an independent shipping station, saving your company additional time and money.

- Clean, quiet digital operation
- Automatically prints up to 120 pieces per minute
- Easy to understand backlit LCD display panel
- Automatic dating and postage correction capabilities
- Program up to nine custom messages
- Meets USPS requirements for IBIP compatibility
- Integrated 10-lb. scale
- Optional interfaced scales handle up to 150 lbs.
- Interfaces with popular accounting and shipping software
- Incoming mail stamp

ultimail™ 95

DIGITAL MAILING SYSTEM

KEY ADVANTAGES

HIGH-TECH PRODUCTIVITY

Designed for image, efficiency and maximum utilization, **ultimail™ 95** processes up to 120 pieces per minute. The 300 dpi print quality ensures a clarity of output that enhances the image of your business.

CUSTOMER FRIENDLY

Intelligently designed to fit into any office environment. A combination of a soft-touch panel with an easy to understand LCD display virtually eliminates any learning curve for operators.

WORLD-CLASS ENHANCEMENTS

Leveraging a state-of-the-art design, **ultimail™ 95** provides an information based indicia (IBI) that delivers the highest level of security proposed by the USPS. Up to nine custom advertisements can be programmed to strengthen your company's brand awareness.

OPTIMAL EFFICIENCY

The quiet design allows you to use the unit anywhere in your office without disturbing co-workers. Trend-setting features like automatic dating, re-dating, postage correction, automatic label dispenser and more set the **ultimail™ 95** apart from the competition.

QUICK AND EASY POSTAGE RELOAD WITH TELESET

Teleset is the postage resetting system developed by FP that utilizes direct communication from the meter to our secure processing center. The entire postage reloading process runs automatically.

CUSTOM MESSAGES AND GRAPHICS

Add greater personalization with up to nine custom advertisements up to six user programmable SMS text-based messages.

DIFFERENTIAL WEIGHING

Increase productivity when processing your mixed mail with the time saving reverse weighing option. If you place several pieces of mail on the scale at once and remove one from the integrated scale, the **ultimail™ 95** will automatically calculate the weight of the last piece removed.

THE **ultimail™ 95** CONVEYOR-STACKER SYSTEM

Just stack your mail in the Automatic Feeder-Sealer, and the **ultimail™ 95** and **ultimail™ CONVEYOR-STACKER** will take care of the rest. The **CONVEYOR-STACKER** handles up to 300 (single-insert) envelopes at one time eliminating the need to continually empty small exit trays during high-volume runs. The **ultimail™** system shown here allows you to seal, post, and stack in one continuous flow.
